## Mandatory Health History Checklist

In order to avoid any complications during your child's surgery or to prepare the facility of any precautions they must take, it is important that the facility has all medical information they will need. To ensure that the facility is aware of all past and current medical history of your child, please complete the health survey/checklist provided in this packet.

**\*This is a mandatory requirement for preparation of your child's surgery. Per the facility, if we do not receive this health survey checklist prior to the surgery date, it will result in cancellation of your child's surgery. The facility will not allow performance of a procedure on your child without knowledge of their current medical status and background (i.e. allergies, past surgical procedures/complications, disorders or conditions).**

After completion, you can either fax the checklist to us at (856) 751-9133 or mail to us at:  
200 Bowman Drive, Ste E-360  
Voorhees, NJ 08043.

*\*Health history checklist MUST be returned to us by: \_\_\_/\_\_\_/\_\_\_ to avoid cancellation.*

**\*\*IMPORTANT\*\***  
**Insurance and Referral Instructions for Surgery**

Dear Parent and/or Guardian,

Thank you for choosing St. Christopher's Hospital for Children. Here are a few reminders and instructions concerning your child's procedure.

**You must bring the following items with you on the day of surgery:**

| What do I need to bring with me?         | What do I need to bring with me?              |
|--|---|
| Driver's license, or photo ID (Passport) | Legal guardianship/custody papers             |
| Proof of insurance                       | Referral from Primary Physician (if required) |

**What if my insurance changes?**

Any changes in health insurance must be reported to us at **215-427-8435 (pre-registration)** at least **one week prior to the surgery** date to allow us to obtain a pre-certification number.  
**Without this information, this surgery will be cancelled.**

**The hospital provider number is listed below for each plan that requires a referral:**

| Insurance Plan Name                           | Referral #        |
|---|-------------------|
| <b>Amerihealth</b>                            | <b>1114959582</b> |
| <b>Gateway</b>                                | <b>1505914</b>    |
| <b>Keystone HMO</b>                           | <b>0002311000</b> |
| <b>Aetna HMO</b>                              | <b>0001437</b>    |
| <b>Unison, Health Nest, United Healthcare</b> | <b>75-2704866</b> |
| <b>Community Plan</b>                         |                   |

Hospital NPI: 1114959582

Hospital Tax ID: 7502784866

### **Instructions for the Day Before & Day of Surgery**

Dear Parent and/or Guardian,

Thank you for choosing St. Christopher's Hospital for Children. Here are a few reminders and instructions concerning your child's surgery.

#### **Prior to the day of surgery:**

- You will be contacted with day of surgery, arrival time, and review of eating and drinking instructions **within 24-48 hours**
- If you have not been contacted by the day before surgery, **call the Short Procedure Unit at 215-427-5277 before 2:00 p.m.**

### **IMPORTANT EATING & DRINKING INSTRUCTIONS BELOW**

**It is important these instructions are followed for the safety of your child**

**If they are not followed, your child's surgery will be cancelled.**

#### **If your child is 1 year old or older:**

- Your child can not have any food or milk **after 12:00 midnight**

The only drinks that he or she can drink after midnight are apple juice or water up to 2 hours before arrival time; nothing at all after that time!

#### **If your child is younger than 1 year old:**

- **Stop breastfeeding 4 hours** before arrival time
- **Stop formula 6 hours** before arrival time
- **Stop clear liquids—like Pedialyte, water, or apple juice—2 hours** before arrival time

If you have any questions call the Short Procedure Unit at **215-427-5277** between the hours of **8:00 a.m. - 4:30 p.m.**

#### **Instructions for the day of surgery:**

- Only two adult family members may accompany your child
- A parent or legal guardian must be with your child on the day of the surgery. If you are the child's legal guardian, bring custody papers
- When you arrive at St. Christopher's please go directly to the Short Procedure Unit after stopping at the Security Desk

**How can you help your child before coming to the hospital?**

Child Life specialists at St. Christopher's Hospital for Children offer services to assist in helping you to prepare your child for his/her upcoming procedure. Coming to the hospital for surgery can be a difficult experience for a child of any age. Below are a few tips you can use to help you prepare your child for his/her surgery.

Bring a favorite toy, stuffed animal, blanket, or music to help comfort them.

**Infants (Birth–1 year)**

The most common fear for children at this age is separation from their primary caregiver. It is important for parents and caregivers to provide support during the hospital stay.

**Toddlers (1–3 years)**

Children of this age also may fear separation from their primary caregiver and may have fears about pain and needles. It is important to tell toddlers about their upcoming surgery about one to two days before surgery. Use simple words that the child will understand. It may be helpful to read books about coming to the hospital while at home and play with doctor kits and dolls.

**Preschool (3–5 years)**

Preschoolers fear the unknown. Children of this age may think that surgery is happening because they did something wrong. Talk to your child about three days before coming to the hospital using simple words that the child can understand. It may be helpful to read books about coming to the hospital and play with doctor kits on dolls or stuffed animals.

**School aged (6–12 years)**

Children at this age have a better understanding of different illnesses and why they have to come to the hospital for surgery. Their biggest concern may be that their body may work or look different after surgery. It is important to begin talking with your child about a week or two before surgery. Your child will most likely have many questions and concerns, and it is best to answer them honestly. Reading books about the hospital and using doctor kits during play may help your child before surgery.

**Teenagers (13 years and up)**

Teenagers are concerned with how their body will look after surgery, and how their friends will react to potential changes. Teenagers are striving for independence and look more toward their peers for acceptance and approval. Privacy is also extremely important to them, and surgery can be seen as invasive or as a loss of control over their lives. Teenagers should be told a few weeks before surgery and should be encouraged to participate in decision making about their care. It is important for teenagers to express their feelings regarding their surgery and encourage them to write down their own questions for the doctor.

If you and your child would like to visit the hospital for a tour or preoperative teaching before your scheduled procedure, we would be happy to arrange this for you. Information about preparing your child can also be found on the hospital website at [stchristophershospital.com/patients-families/before-your-visit](http://stchristophershospital.com/patients-families/before-your-visit).

For additional guidance in preparing your child, or for a tour appointment, please call: 215-427-5000

### **Frequently Asked Questions**

**1.) Where is Admissions?**

Admissions is located on the first floor of the hospital. Please stop at security first. After you are registered the admissions staff will provide you directions to the short procedure unit.

**2.) Where can I pay for parking?**

Parking is free up to 30 minutes; and \$5.00 per day past 30 minutes. Parking pay stations may be found in the first level of the parking garage, the hospital lobby, the Nelson Pavilion lobby and the emergency department entrance.

**3.) If I have a deductible, do I need to pay on the day of surgery?**

Yes. All co-pays and deductibles are due at the time of service.

**4.) How will I know my family member's surgery is done?**

When you arrive to the short procedure unit the staff will request your cell number so the physician can contact you after the surgery. If you do not have a cell phone, we request you remain in the short procedure unit.

**5.) What if my insurance requires me to get a referral?**

Some insurance require that you obtain a referral from your primary care physician. Here is what you will need:

- Child's name
- Date of birth
- Procedure date
- Child's physician
- Procedure(s) & Procedure(s) codes
- Primary diagnosis and code
- Physician provider #
- Physician NPI #

**6.) Where can I get something to eat or drink while at St. Chris?**

We have two locations where you can get food or drink. The first is the Jungle Hut, located on the first floor right outside the admission office. Our cafeteria is located on the ground level. Breakfast is 6:45-9:30 a.m. and lunch/dinner is 11:00 a.m. to 6:30 p.m.
