Amanda Bagdsarian, CRNP
Kristi Wert, CRNP

Day of In-Office Circumcision

1. Do not apply powder, lotion, or diaper cream/appointment on the day of the appointment
2. Bring Infant Tylenol (Do not give the baby any until advised by our provider)
3. Bring packed Diaper Bag with the change of clothes, diapers, formula (if applicable), bottles and wipes, etc
4. Make sure to bring a pacifier for the procedure
5. Please make sure the baby is fed, full and happy directly BEFORE coming into the office. A hungry patient is more uncomfortable during the procedure.
Do not feed the baby once you're in the office unless instructed by your provider or nurse.
